

Slice 1: Introduction

Introduction

- Welcome to the We Art Family Advanced Course.
- Our childhoods inform our artistic styles as adults. We need to harness the creative freedom we possessed when we were children.
- In this course we want to achieve pure expression beyond the academic artistic canons.
- Reflect on your progress throughout the previous courses. Now that we have a clearer understanding of traditional methods and subject matter, we can truly liberate ourselves.
- We will use new, unconventional materials and work on a large scale.
